Canadian Platinum Corp.
Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2015

(amounts in Canadian dollars)
(unaudited)

1. Nature of Operations

Canadian Platinum Corporation (the "Corporation") is a public company whose shares are listed on the TSX-V. The Corporation is in the business of acquiring, exploring and developing mining properties. The address of business of the Corporation is Suite 260 – 2366 Avenue C North, Saskatoon, Saskatchewan, Canada, S7L 5X5.

To date, the Corporation has not yet determined whether its properties contain ore reserves that are economically recoverable. Accordingly, costs related to the exploration of minerals have been considered as costs related to the pre-operating stage. Once the Corporation completes preliminary testing and commences field activity, it will be considered to be in the commercial operations phase.

The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable mineral reserves, continued confirmation of the Corporation's interest in the underlying concessions, the ability of the Corporation to obtain necessary financing to complete the development of the properties, and the generation of sufficient income through future production from ore disposition or farm-out of existing mining interests.

These financial statements were approved and authorized for issuance by the Board of Directors on May 14, 2015.

2. Going concern

The Corporation has not yet earned operational revenue as it is still in the exploration phase of its business. The operations of the Corporation are currently being financed from funds which the Corporation raised from past private and public placements of its shares. The Corporation is reliant on the continuing support from its existing directors and future shareholders (Note 8). The Corporation has an accumulated deficit of \$10,644,908 and working capital deficit of \$220,334 at March 31, 2015. These factors create a material uncertainty that may cast significant doubt about the Corporation's ability to continue as a going concern.

The Corporation will need to raise additional equity or incur additional debt to continue operations for the foreseeable future and to meet its liabilities as they fall due. There is no assurance that the Corporation will be successful in completing the raising of additional equity or will be able to obtain additional debt on terms acceptable to the Corporation. The Corporation's ability to continue as a going concern is dependent on its ability to obtain the necessary financing to fund its operations.

These financial statements do not reflect adjustments that would be necessary if the going concern assumption was not appropriate. If the going concern basis was not appropriate for these financial statements, then adjustments would be necessary in the carrying value of assets and liabilities, the reported revenue and expenses and the statement of financial position classification used.

3. Basis of preparation

(a) Statement of compliance

These financial statements have been prepared in accordance with the standards and interpretations issued by the International Accounting Standards Board ("IASB"). These include International Financial Reporting Standards ("IFRS"), International Accounting Standards ("IAS"), the interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") and the Standing Interpretations Committee ("SIC"), which are effective and applicable to the Corporation as at the end of its current fiscal year.

(b) Basis of measurement

The financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value.

Canadian Platinum Corp.
Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2015

(amounts in Canadian dollars)
(unaudited)

In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

(c) Functional and presentation currency

These financial statements are presented in Canadian dollars, which is also the Company's functional currency.

(d) Critical accounting estimates and judgments

The preparation of these financial statements in conformity with IFRS requires management to make judgments and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Accounting estimates will, by definition, seldom equal the actual results. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Valuation of exploration and evaluation assets

The valuation of exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves which in turn is dependent on future mineral prices, future capital expenditures and environmental and regulatory restrictions.

Exploration and evaluation assets are aggregated into cash-generating units ("CGUs") based on their ability to generate largely independent cash flows and are used for impairment testing. The calculation of assets into CGUs requires significant judgment and interpretations with respect to the integration between assets, the existence of active markets, external users, shared infrastructure and the way in which management monitors the Corporation's operations. The determination of the Corporation's CGUs is subject to management's judgment.

Decommissioning provisions

Amounts recorded for any decommissioning provision depends on estimates of current risk-free interest rates, future restoration and reclamation expenditures and the timing of those expenditures.

Income taxes

The amounts recorded for deferred income taxes are based on estimates as to the timing of the reversal of temporary differences and tax rates currently substantively enacted. They are also based on estimates of the probability of the Corporation utilizing certain tax pools and assets which, in turn, is dependent on estimates of mineral reserves, production rates, future mineral prices and changes in legislation, tax rates and interpretations by taxation authorities. The availability of tax pools is subject to audit and interpretation by taxation authorities.

Stock-based compensation

The amounts recorded relating to the fair value of options and performance warrants issued are based on estimates of the future volatility of the Corporation's share price, forfeiture rates, expected lives of the underlying security, expected dividends and other relevant assumptions.

Canadian Platinum Corp.
Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2015

(amounts in Canadian dollars)
(unaudited)

Flow-through share premium

The amounts recorded for flow-through share premium and related deferred income tax effect are based on management's estimates of the market values of the Corporation's share on the date of issuance, excluding the flow-through feature.

4. Significant accounting policies

The accounting policies followed by the Corporation are set out in Note 4 to the audited financial statements for the year ended December 31, 2014, and have been consistently followed in the preparation of these condensed interim financial statements.

On January 1, 2014, the Corporation adopted the following new standards and amendments:

Amendments to IAS 32 "Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities"

Amendments to IAS 32 establish disclosure requirements that are intended to help clarify for financial statement users, the effect or potential effect of offsetting arrangements on an entity's financial position. These amendments came into effect January 1, 2014. The Corporation determined that the adoption of these amendments did not have an impact on its financial statements.

IFRIC 21, "Levies"

IFRIC 21 clarifies that an entity recognizes a liability for a levy when the activity that triggers payment occurs, as identified by relevant legislation. For a levy that is triggered upon reaching minimum threshold, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached. The IFRIC does not apply to accounting for income taxes, fines and penalties or for the acquisition of assets from governments. IFRIC 21 became effective on January 1, 2014. The Corporation determined that the change to IFRIC 21 did not have an impact on its financial statements.

Amendments to IAS 36, "Impairment of Assets"

IAS 36 reduces circumstances in which the recoverable amount of CGUs is required to be disclosed and clarifies the disclosures required when an impairment loss has been recognized or reversed in the period. The amendments were required to be adopted retrospectively for annual periods beginning January 1, 2014, with earlier adoption permitted. The adoption of this amendment will only impact the Corporation's disclosures in the notes to the financial statements in periods when an impairment loss or impairment reversal is recognized.

Recent accounting pronouncements

The following pronouncements have been issued but are not effective for the fiscal year beginning January 1, 2014 and accordingly, have not been applied in preparing these financial statements.

Financial Instruments: Classification and Measurement

IFRS 9, "Financial Instruments" was issued by the IASB in October of 2010 and will replace IAS 39. The mandatory effective date of the standard has not been determined due to the incomplete status of the second phase of the project by the IASB. It applies to classification and measurement of financial assets as defined in IAS 39. It uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple classification options in IAS 39. The standard is effective for annual period beginning on or after January 1, 2018. The Corporation determined that IFRS

Canadian Platinum Corp.
Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2015
(amounts in Canadian dollars)
(unaudited)

9 did not have an impact on its financial statements.

5. Financial instruments and risk management

(a) *Risk management overview*

The Corporation's activities expose it to a variety of financial risks including credit risk and liquidity risk. This note presents information about the Corporation's exposure to each of the above risks, the Corporation's objectives, policies and processes for measuring and managing risk, and the Corporation's management of capital. Further quantitative disclosures are included throughout these financial statements. The Corporation employs risk management strategies and policies to ensure that any exposure to risk are in compliance with the Corporation's business objectives and risk tolerance levels. While the Board of Directors has the overall responsibility for the Corporation's risk management framework, the Corporation's management has the responsibility to administer and monitor these risks.

(b) *Fair value of financial instruments*

The fair values of cash, accounts payable and accrued liabilities, and due to related parties approximate their carrying value due to the short-term maturity of those instruments.

The significance of inputs used in making fair value measurements are examined and classified according to a fair value hierarchy. Fair values of assets and liabilities included in Level 1 are determined by reference to quoted prices in active markets for identical assets and liabilities. Assets and liabilities in Level 2 include valuations using inputs other than quoted prices for which all significant outputs are observable, either directly or indirectly, and are based on valuation models and techniques where the inputs are derived from quoted indices. Level 3 valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

Cash is measured at fair value based on a Level 1 designation.

(c) *Credit risk*

Credit risk is the risk of financial loss to the Corporation if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The financial instrument that potentially subjects the Corporation to a significant concentration of credit risk consists of cash. The Corporation mitigates its exposure to credit loss by placing its cash in a major financial institution.

(d) *Liquidity risk*

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they are due. The Corporation's approach to managing liquidity is to ensure that it will have sufficient liquidity to meet its liabilities when due.

At March 31, 2015, the Corporation's accounts payable and accrued liabilities are all due within the next year. The amounts due to related parties have no set terms of repayment.

During the period ended March 31, 2015 the Corporation received advances from related parties (Note 8) to assist in the management of liquidity risk. The Corporation may need to complete further equity issuances, issue debt or postpone/cease certain expenses and/or exploration and evaluation assets expenditures in order to settle all financial liabilities in the next twelve months.

(e) *Capital management*

The Corporation's policy for managing capital is to maintain a strong capital base for the objectives of maintaining financial flexibility and to sustain the future development of the business. The Corporation's primary objective with respect to its capital management is to ensure that it has sufficient cash resources available to fund the identification and evaluation of potential mining interests. To secure the additional capital necessary to pursue these plans, the Corporation may adjust spending, raise additional funds through the issuance of equity or by securing strategic partners. The Corporation's officers are responsible for managing the Corporation's capital and the Corporation's Board of Directors is responsible for overseeing this process.

The Corporation includes shareholders' equity and due to related parties in the definition of capital.

The Corporation manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Corporation may adjust spending, issue new shares or incur debt. The Corporation's ability to raise additional equity or debt financing is impacted by external conditions including the global economic downturn.

During the period ended March 31, 2015, the Corporation received advances from related parties (Note 8) to assist in the management of capital. The Corporation will need to raise sufficient capital resources in order to carry its exploration plans and operations for the upcoming year.

The Corporation is not subject to externally imposed capital requirements.

There were no changes in the Corporation's approach to capital management during the period ended March 31, 2015.

6. Exploration and evaluation assets

Exploration and evaluation ("E&E") assets consist entirely of capitalized exploration and evaluation expenditures. E&E assets include costs incurred in relation to the Corporation's mining claims. These amounts have not been expensed to the statement of loss as exploration expenses because commercial reserves have not yet been established or the determination process has not yet been completed.

The outcome of ongoing exploration and evaluation, and therefore whether the carrying value of E&E assets will ultimately be recovered, is inherently uncertain. Management has assessed the value of the E&E assets and in their opinion, no impairment is necessary at March 31, 2015. This assessment includes a review of the expiry dates of claims, the likelihood of meeting the annual expenditure requirements to maintain the claims in good standing and management's intention on pursuing the mining claims in the future.

Peter Lake Platinum Project

The Peter Lake Property is located in Northern Saskatchewan. The property is comprised of 14 mining claims. Management allowed 19 additional mining claims to expire in 2013 and 2014. As a result the Corporation recorded an impairment loss of \$1,230,711 for the year ending December 31, 2013 and an impairment loss of \$804,898 for the year ending December 31, 2014. The active claims require the Corporation to incur exploration expenditures amounting to approximately \$923,655 on or before the specified date and each year thereafter, as follows:

\$27,465 on or before June 20, 2015;
 \$353,160 on or before August 12, 2015;
 \$70,530 on or before February 21, 2017;
 \$75,945 on or before August 12, 2018;
 \$78,735 on or before August 12, 2021;
 \$84,315 on or before August 12, 2022;
 \$64,650 on or before August 12, 2023;
 \$55,935 on or before August 12, 2024; and
 \$112,920 on or before August 12, 2034

Canadian Platinum Corp.
Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2015
(amounts in Canadian dollars)
(unaudited)

Brabrant Lake Graphite Project

The Brabant Lake Property is located in Northern Saskatchewan. The property is comprised of 4 mining claims. Management allowed one claim to expire in 2015 and 12 additional mining claims to expire in 2013 and 2014 and the Corporation recorded an impairment loss of \$232,908 for the year ending December 31, 2013. The active claims require the Corporation to incur exploration expenditures amounting to approximately \$168,448 on or before the specified date and each year thereafter as follows:

\$157,898 on or before August 12, 2015; and
\$10,550 on or before August 12, 2018.

Craig Lake/Flin Flon South

The Craig Lake/Flin Flon South property consists of 2 mining claims subject to a 3% net smelter royalty which may be acquired by the Corporation, at any time, for a cash payment of \$5,000,000. Management allowed a claim to expire in 2013. Management at this time is not actively exploring this property and as a result the Corporation recorded an impairment loss of \$1,257,144 for the year ending December 31, 2014. The active claims require the Corporation to incur exploration and development expenditures amounting to approximately \$105,540 on or before the specified date and each year thereafter as follows:

\$64,080 on or before April 8, 2016; and
\$41,460 on or before April 9, 2026.

7. Share capital

The authorized share capital of the Corporation is unlimited number of common shares without par value and an unlimited number of preferred shares, issuable in series, with the rights, privileges, restrictions and conditions designated by the Board of Directors at the time of issuance. The Corporation did not issue any securities during the period ended March 31, 2015.

At March 31, 2015 and at the date hereof, there were 126,124,565, common shares outstanding and 4,265,000 stock options outstanding in the capital of the Corporation.

Stock options

The Corporation has established a share based compensation plan pursuant to which options to purchase common shares may be granted to certain officers, directors and contractors of the Corporation as well as persons providing ongoing services to the Corporation. The aggregate number of shares issuable under the plan shall not exceed 10% of the issued and outstanding common shares of the Corporation. Unless otherwise determined by the Board of Directors of the Corporation, the exercise price of options equals the closing price of the common shares on the day prior to the date of the grant. Stock options vest in accordance with the determination of the Board at the time of the grant and may be granted for up to a ten year term.

Canadian Platinum Corp.
Notes to the Condensed Interim Financial Statements
For the three months ended March 31, 2015
(amounts in Canadian dollars)
(unaudited)

A summary of the status of the Corporation's incentive stock option plan as at March 31, 2015 and 2014 is as follows:

	2015		2014	
	Number of options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Outstanding, beginning of period	4,265,000	\$ 0.35	10,430,000	\$ 0.35
Expired	-	-	-	-
Forfeited	-	0.35	-	-
Outstanding, end of period	4,265,000	\$ 0.35	10,430,000	\$ 0.35
Exercisable, end of period	4,265,000	\$ 0.35	10,430,000	\$ 0.35

The 4,265,000 stock options outstanding and exercisable at March 31, 2015 have a weighted average remaining contractual life of 6.65 years.

8. Related party transactions

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Corporation as a whole. The Corporation has determined that this consists of corporate officers, executive and non-executive members of the Corporation's Board of Directors and companies owned by these individuals. During the period, the Corporation paid the key management personnel \$12,500 (2014 - \$Nil) of management fees which is included in professional fees.

As at March 31, 2015 accounts payable and accrued liabilities includes \$6,930 (2014 - \$Nil) due to related parties.

In addition, funds have been advanced by directors of the Corporation since 2013 to fund general and administrative expenses. The advances are non-interest bearing, unsecured and have no set terms of repayment. The outstanding balance as at March 31, 2015 for advances from related parties is \$188,571 (2014 - \$90,000).

9. Supplemental cash flows information

Changes in non-cash working capital for the periods ended March 31, 2015 and 2014 is comprised of:

	2015	2014
Provided by (used in):		
GST recoverable	\$ (2,018)	\$ (625)
Prepaid expenses	(1,225)	(25,792)
Accounts payable and accrued liabilities	(20,844)	15,840
	<u>\$ (24,087)</u>	<u>\$ (10,577)</u>
Changes in non-cash working capital related to:		
Operating activities	\$ (24,087)	\$ (10,577)
Financing activities	-	-
Investing activities	-	-
	<u>\$ (24,087)</u>	<u>\$ (10,577)</u>

There was no interest or income taxes paid during the periods ended March 31, 2015 or 2014.

10. Commitments

The Corporation entered into a lease agreement for its office premises. The lease expires on October 31, 2015. The lease commitment for 2015 is \$8,575.

11. Subsequent Event

Subsequent to March 31, 2015, a director of the Corporation advanced \$59,000 to fund general and administrative expenses. The advance is non-interest bearing, unsecured and has no set terms of repayment.

This Management Discussion and Analysis ("MD&A") of the financial condition and results of operations for Canadian Platinum Corp. ("Canadian Platinum" or the "Corporation") is dated May 14, 2015 and should be read in conjunction with the Company's unaudited condensed interim financial statements for the period ended March 31, 2015, together with the accompanying notes thereto.

Management is responsible for the preparation and integrity of the financial statements, including the maintenance of appropriate information systems, procedures and internal controls and to ensure that information used internally or disclosed externally, including the financial statements and MD&A, is complete and reliable. The Company's Board of Directors follows recommended corporate governance guidelines for public companies to ensure transparency and accountability to shareholders. The Board's audit committee meets with management quarterly to review the financial statements including the MD&A and to discuss other financial, operating and internal control matters.

Statements in this report that are not historical facts are forward-looking statements involving known and unknown risks and uncertainties, which could cause actual results to vary considerably from these statements. Readers are cautioned not to put undue reliance on forward-looking statements.

Additional information relating to Canadian Platinum can be found on SEDAR at www.sedar.com.

Forward-looking Statements

This MD&A may contain certain forward-looking statements with respect to the Corporation. These forward-looking statements are subject to both known and unknown risks and uncertainties which may cause actual results, performances or achievements to be materially different from those contemplated by such forward-looking statements. The Corporation considers the assumptions on which these forward-looking statements are based to be reasonable at the time they were prepared, but caution the reader that these assumptions regarding future events, many of which are beyond the control of management, may ultimately prove to be incorrect. The Corporation does not, except as required by law, undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Overview

Canadian Platinum Corp. is a Canadian-based, publicly listed company that resulted from the amalgamation of McGregor Capital Corp. and Canadian Platinum Corp. on November 2, 2011. The Corporation trades on the TSX.V under the symbol "CPC".

The Corporation is an exploration stage company and has no revenues other than interest from funds on deposit. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Corporation to obtain the necessary approval and financing to complete the development, and future profitable production from the properties or proceeds from disposition. The Corporation has, in the past, been dependent on raising cash through the sale of its common shares, either by way of private placement or through the exercise of warrants or options. The Corporation fully anticipates undertaking further private placements or public offerings in the future in order to finance business opportunities as they may arise.

Ownership in mineral interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral interests. The Corporation has investigated ownership of its mineral interests and, to the best of its knowledge, such ownership interests are in good standing.

Performance Summary

The Corporation has significantly reduced its land position and the number of projects in its project portfolio to focus on the core project, the Peter Lake platinum project. The Brabant graphite project was also maintained and assessment work filed to keep priority claims in good standing. Management continues to actively seek out and evaluate other projects that would be a good corporate fit and could be of interest to potential investors.

The Corporation is awaiting receipt of a NI43-101 compliant Technical Report in respect of its principal properties. Upon receipt and evaluation of the said Report, and subject to availability of capital on terms acceptable to the Corporation, it is anticipated that the Corporation will continue to undertake exploration activities on its properties as warranted. The Corporation may also explore joint ventures and other opportunities to enhance shareholder value.

Assets of the Corporation

In addition to cash, prepaid expenses, and accrued goods and services input tax credits, the Corporation's major asset is its investment in mineral properties. As of March 31, 2015, the Corporation's investment in mineral properties totaled \$8,567,878 as compared to \$10,611,180 at March 31, 2014.

Exploration Properties

The Corporation has significantly reduced its land position and the number of projects in its project portfolio to focus on the core project, the Peter Lake platinum project. The Brabant graphite project was also maintained and assessment work filed to keep priority claims in good standing. Management continues to actively seek out and evaluate other projects that would be a good corporate fit and could be of interest to potential investors in the Corporation.

Peter Lake Platinum Project

The Peter Lake Property is located in Northern Saskatchewan, approximately 110km south of Points North Landing, and consists of 14 active mineral dispositions totaling 61,577 hectares. 19 additional mineral claims were allowed to expire in 2013 and 2014. An impairment loss of \$1,230,711 was recorded on the books in 2013 and a further impairment loss of \$804,898 was recorded for the year ended December 31, 2014.

The claims cover a significant portion of the Peter Lake Domain, which hosts the Swan River Complex, the largest mafic/ultramafic complex in North America next to the Duluth Complex (Hulbert, 1988). Previous work has established the existence of significant platinum group element ("PGE") mineralization together with significant copper and nickel values. The Swan River Complex is considered to be prospective for magmatic breccia type PGE deposits similar to Lac des Iles in Ontario (from the NI 43-101-compliant technical report prepared by Roscoe Postle Associates Inc. entitled "Technical Report on the Peter Lake Project, Northern Saskatchewan, Canada" effective July 12, 2012, hereinafter the "RPA Report").

Between 2009 and 2011 the Corporation completed extensive geophysical surveys including 10,878 line-km of airborne ZTEM, VTEM, and Magnetometer surveys, and 35 line-km of Horizontal Loop and Pulse EM ground surveys. As a result of these surveys, correlations were made with known PGE mineralization and many similar anomalies were identified, in particular from the VTEM results, in the Swan Lake area of the Swan River Complex. Based on a combination of known mineralization and geophysical results drill testing was also completed over a number of areas in the same 2009-2011 time period. A total of 59 diamond drill holes totaling 16,174 metres were completed with 47 of those drill holes, totaling 13,928 metres, concentrated on the Swan Lake Zone. The Swan Lake Zone was historically known to host PGE

and Ni-Cu mineralization and correlates with a VTEM anomaly. In the RPA Report it is noted that there are 16 additional VTEM targets in the Swan Lake area similar to that of the Swan Lake Zone.

The work to date including surface prospecting, geochemistry, geophysics and drilling has proven the Peter Lake project area hosts significant Ni-Cu-PGE mineralization and that there are a large number of highly prospective targets identified, in addition to the Swan Lake Zone, requiring follow-up exploration. The Corporation has already started the process of compiling all the existing geophysical data with the goal of prioritizing the most prospective targets for Ni-Cu-PGE mineralization. A consultant with expertise in interpreting geophysics, in particular VTEM and ZTEM, in mafic/ultramafic environments will be engaged to assist in that effort.

Brabant Lake Graphite Project

The Brabant Lake Property is a grassroots prospect consisting of 4 mineral claims covering 11,230 hectares near Peter Lake in Northern Saskatchewan. One claim expired in 2015 and 12 additional claims were allowed to expire in 2013 and 2014 and the Corporation recorded an impairment loss of \$232,908 for the year ending December 31, 2013.

Extensive surface sampling and ground geophysics, including VLF-EM and magnetics, has identified 3 separate zones of large-flake graphite mineralization on the property.

The most promising showing, the Ben showing, produced assay results from 6.4% graphitic carbon ("Cgr") to 48.4% Cgr. Samples from each showing indicated that 82% to 86% of the graphite reported to the +80 mesh (+0.18mm) size fraction and 70% to 79% reported to the +50 mesh (+0.30mm) size fraction.

The Company is currently in discussions with a potential partner to continue exploration on the Brabant Lake Project. The next stage of work would include trenching, sampling and assaying as well as preliminary metallurgical work. If the results are positive, a limited drill program would be considered.

Craig Lake/Flin Flon South

The Craig Lake/Flin Flon South property consists of 2 mining claims covering 7,036 hectares. These claims are subject to a 3% net smelter royalty which may be acquired by the Corporation, at any time, for a cash payment of \$5,000,000. The Corporation also had 1 other claim covering 550 hectares which the Corporation allowed claim to expire in 2013. Management at this time is not actively exploring this property and as a result the Corporation recorded an impairment loss of \$1,257,144 for the year ending December 31, 2014.

Brakewell/Spence Lake

During the year ended December 31, 2013, management allowed 8 mining claims to expire. As a result, the Corporation recorded an impairment loss of \$41,245 for the year ended December 31, 2013 on this property.

Keystone/Dot/Camel Lake

During the year ended December 31, 2013, management allowed 9 mining claims to expire. The Corporation recorded an impairment loss of \$4,188 for the year ending December 31, 2013 on this property.

Results of Operations

The Corporation has no material revenues, and is dependent upon both satisfactory results from exploration and access to capital on reasonable terms in order to advance its projects.

Selected Annual Financial Information

	2015*	2014	2013
Net comprehensive loss	(\$1,795,826)	(\$1,795,826)	(\$1,543,469)
Basic and diluted loss per share	(\$0.01)	(\$0.01)	(\$0.01)
Total assets	\$8,574,556	\$8,574,556	\$10,621,984

*2015 includes only Q1 results

Selected Quarterly Financial Information

The following quarterly financial data is derived from the financial statements of the Corporation for the three-month periods ended on the dates indicated below:

	Mar 31/15	Dec 31/14	Sep 30/14	Jun 30/14
Total assets	\$8,574,648	\$8,574,556	\$10,644,181	\$10,634,984
Exploration and evaluation assets	\$8,567,878	\$8,567,878	\$10,621,921	\$10,621,921
Working capital deficiency	(\$220,334)	(\$201,113)	(\$132,170)	(\$119,946)
Shareholders' equity	\$8,347,544	\$8,366,765	\$10,140,782	\$10,153,008
Net comprehensive loss	(\$19,221)	(\$1,774,018)	(\$12,224)	\$4,725
Loss per share (basic and diluted)	\$(0.001)	\$(0.01)	(\$0.001)	\$0.001
	Mar 31/14	Dec 31/13	Sep 30/13	Jun 30/13
Total assets	\$10,673,515	\$10,621,984	\$12,234,738	\$12,273,276
Exploration and evaluation assets	\$10,611,180	\$10,609,500	\$12,118,342	\$12,101,038
Working capital deficiency	(\$113,929)	(\$97,940)	(\$44,119)	\$30,406
Shareholders' equity	\$10,148,282	\$10,162,591	\$11,349,513	\$11,406,734
Net comprehensive loss	(\$14,309)	(\$1,176,921)	(\$247,221)	(\$102,062)
Loss per share (basic and diluted)	(\$0.001)	(\$0.01)	(\$0.001)	(\$0.001)

Comparison of the Three Months Results

During the quarter ended March 31, 2015, the Company reported a net loss of \$19,221 (\$14,309 in 2014).

The following is a comparison of significant items from operations: advertising and promotion of \$Nil (\$2,500 in 2014), office expenses of \$4,666 (\$Nil in 2014), professional fees of \$12,500 (\$1,731 in 2014), filing fees of \$115 (\$5,200 in 2014) and transfer agent fees of \$1,891 (\$4,563 in 2014).

Capital Expenditures

The Corporation used its cash on hand for the acquisition and development of mineral properties and related equipment. During the period ended March 31, 2015, the Corporation incurred \$Nil in capital expenditures as compared to \$Nil for the same period in 2014.

Financial Condition/Liquidity/Capital Resources

The Corporation has historically relied upon advances from its shareholders and directors and the equity capital markets to raise funds to finance its mineral property acquisitions and exploration programs. As of March 31, 2015, the Corporation has a cash balance of \$774 to fund its future activities.

Share Capital

The authorized share capital of the Corporation is unlimited number of common shares without par value and an unlimited number of preferred shares, issuable in series, with the rights, privileges, restrictions and conditions designated by the Board of Directors at the time of issuance. The Corporation did not issue any securities during the periods ended March 31, 2014 and 2013.

At March 31, 2015 and at the date hereof, there were 126,124,565, common shares outstanding and 4,265,000 stock options outstanding in the capital of the Corporation.

Stock Options

The Corporation has established a share based compensation plan pursuant to which options to purchase common shares may be granted to certain officers, directors and contractors of the Corporation as well as persons providing ongoing services to the Corporation. The aggregate number of shares issuable under the plan shall not exceed 10% of the issued and outstanding common shares of the Corporation. Unless otherwise determined by the Board of Directors of the Corporation, the exercise price of options equals the closing price of the common shares on the day prior to the date of the grant. Stock options vest in accordance with the determination of the Board at the time of the grant and may be granted for up to a ten year term.

A summary of the status of the Corporation's incentive stock option plan as at March 31, 2015 and 2014 is as follows:

	2015		2014	
	Number of options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Outstanding, beginning of year	4,265,000	\$ 0.35	10,430,000	\$ 0.35
Expired	-	-	-	-
Forfeited	-	-	-	-
Outstanding, end of year	4,265,000	\$ 0.35	10,430,000	\$ 0.35
Exercisable, end of year	4,265,000	\$ 0.35	10,430,000	\$ 0.35

The 4,265,000 options outstanding have an expiry date of November 22, 2021.

Related Party Transactions

Related parties and related party transactions impacting the accompanying financial statements include transactions with key management personnel. Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Corporation as a whole. The Corporation has determined that this consists of corporate officers, executive and non-executive members of the Corporation's Board of Directors and companies owned by these individuals. During the period, the Corporation paid the key management personnel \$12,500 (2014 - \$Nil) of management fees which is included in professional fees.

As at March 31, 2015 accounts payable and accrued liabilities includes \$6,930 (2014 - \$Nil) due to related parties.

In addition, funds have been advanced by key management/shareholders of the corporation. There is no set repayment terms relating to the loan, and the loan was provided in the regular course of business. The amount still outstanding at March 31, 2015 is \$188,571 (2014 - \$90,000).

Changes in Accounting Policies

New standards implemented

Amendments to IAS 32 "Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities"

Amendments to IAS 32 establish disclosure requirements that are intended to help clarify for financial statement users, the effect or potential effect of offsetting arrangements on an entity's financial position. These amendments came into effect January 1, 2014. The Corporation determined that the adoption of these amendments did not have an impact on its financial statements.

IFRIC 21, "Levies"

IFRIC 21 clarifies that an entity recognizes a liability for a levy when the activity that triggers payment occurs, as identified by relevant legislation. For a levy that is triggered upon reaching minimum threshold, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached. The IFRIC does not apply to accounting for income taxes, fines and penalties or for the acquisition of assets from governments. IFRIC 21 became effective on January 1, 2014. The Corporation determined that the change to IFRIC 21 did not have an impact on its financial statements.

Amendments to IAS 36, "Impairment of Assets"

IAS 36 reduces circumstances in which the recoverable amount of CGUs is required to be disclosed and clarifies the disclosures required when an impairment loss has been recognized or reversed in the period. The amendments were required to be adopted retrospectively for annual periods beginning January 1, 2014, with earlier adoption permitted. This amendment was applied by the Corporation on January 1, 2014 and the adoption will only impact the Corporation's disclosures in the notes to the financial statements in periods when an impairment loss or impairment reversal is recognized.

Recent accounting pronouncements

The following pronouncements have been issued but are not effective for the fiscal year beginning January 1, 2014 and accordingly, have not been applied in preparing these interim financial statements.

Financial Instruments: Classification and Measurement

IFRS 9, "Financial Instruments" was issued by the IASB in October of 2010 and will replace IAS 39. The mandatory effective date of the standard has not been determined due to the incomplete status of the second phase of the project by the IASB. It applies to classification and measurement of financial assets as defined in IAS 39. It uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple classification options in IAS 39. The standard is effective for annual periods beginning on or after January 1, 2018. The Corporation will assess the impact that IFRS 9 will have on its financial statements as the remaining phases of the project are completed.

Financial Instruments and Other Instruments

The Corporation's financial instruments consist of cash, accounts payable and accrued liabilities and due to related parties. It is management's opinion that the Corporation is not exposed to significant liquidity, market or credit risks arising from its financial instruments and that the fair value of these financial instruments approximates their carrying values.

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they fall due. The Corporation may need to complete further equity issuances, issue debt or postpone/cease certain expenses and/or exploration and evaluation asset expenditure in order to settle all financial liabilities in the next twelve months.

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. The Corporation does not have marketable securities or short-term investments. The Corporation's functional currency is Canadian and the Corporation's expenditures are predominantly in Canadian dollars.

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. Credit risk is managed by placing cash in a major Canadian financial

institution. The Corporation's receivables consist mainly of GST receivable due from the Government of Canada.

Risk Factors

Mineral exploration and evaluation involves a high degree of risk and few properties that are explored are ultimately developed into producing mines. There is no assurance that the Corporation's mineral exploration and evaluation activities will result in any discoveries of new bodies of commercial ore. There is also no assurance that presently identified mineralization can be mined at a profit. Discovery of mineral deposits is dependent upon a number of factors and significantly influenced by the technical skill of the exploration personnel involved. The commercial viability of a mineral deposit is also dependent upon a number of factors, some of which are beyond the Corporation's control such as government policies and regulation and environmental protection

The Corporation is dependent on debt and equity financing to carry out its future exploration and evaluation plans and maintain its mineral properties in good standing. There can be no assurance that such financing will be available to the Corporation.

There is a degree of uncertainty attributable to the calculation of resource tonnages and grades. Resource estimates are dependent partially on statistical influences drawn from drilling, sampling and other data. The measured and indicated and inferred resource figures set forth by the Corporation are estimates, and there is no certainty that these resources can be converted into reserves with profitable extraction. Declines in the market prices for metals may adversely affect the economics of converting a resource estimate into a reserve.

Corporate Governance

Management of the Corporation is responsible for the preparation and presentation of the financial statements and the accompanying notes, the MD&A, and other information contained in this report.

Management also has the responsibility for the maintenance of adequate accounting records and internal controls, prevention and detection of fraud and errors, safeguarding of assets, selection, and application of suitable policies, and appropriate disclosure and the timely disclosure of financial information in the financial statements. The preparation of the financial statements in accordance with generally accepted accounting principles is also the responsibility of management.

Subsequent Events

Subsequent to December 31, 2014, a director and officer of the Corporation advanced \$59,000 to fund general and administrative expenses. The advance is non-interest bearing, unsecured and has no set terms of repayment.
